New for 2011

As of January 2011 **MGS Electrical Training** are proud to announce that we will be running a range of electrical training courses in partnership with **North East Surrey College of Technology (Nescot)**.

An exciting addition the range of courses available at Nescot will be the City & Guilds qualifications in Installing and Maintenance of Small Scale Solar Photovoltaic Systems, which is part of the Qualification in Environmental Technologies, City & Guilds 2399, which will be replacing the current 2372 qualification.

In addition to the new Solar PV courses we will be running a range of Inspection & Testing and Part P Domestic Installers courses.
